

Apples Cookery School has closed, unfortunately it is just the wrong time in my life to run such a business but the business has been a huge success for the last 3 and a half years. I have plans to use my experiences to help others set up a similar business. I would like to share my experiences and knowledge with people such as yourself to help speed up the process of setting up a children cookery business.

How I could help you;

I could put together a package to help you fast track your business into being a success. For example I could assist you with suppliers, marketing, recipes (of which I have nearly 300 specifically written for children), lesson plans, database templates.... be a sounding block and offer suggestions, I know how daunting it can be!

As I said I have a huge wealth of tried and tested experience and have gone through the process of setting up such a business so if I can help you I would be very much like to.

After a year of opening Apples I was awarded the Shellive wire young entrepreneur of the year for Oxfordshire.
